Hi Joe,

Based on the Notice of Intent that you submitted, which proposes 3 acres of open (ungraded) disturbance and 7 acres of graded (but not revegetated) disturbance, you will need to provide mine reclamation surety as calculated below:

### Small Mine Bond Calculation Worksheet (5-year Bond Adjustment Period)

Item	Qty	Unit Cost	Total Cost
1st Acre Disturbance	1	\$8,200.00	\$8,200.00
Add'l Acres Disturbance	2	\$5,100.00	\$10,200.00
Regraded Acres (Revegetation)	7	\$1,000.00	\$7,000.00
Portal Closure	0	\$2,000.00	\$0.00
Additional Mob/de-mob	0	\$2,000.00	\$0.00
<b>TOTAL</b>			<b>\$25,400.00</b>

Your current regraded disturbance is about 7 acres. This reclamation bond amount and your proposed Notice will give you an additional 3 acres in which to mine. You will need to correctly seed the graded areas this fall or winter with an acceptable seed mix if you want to be able to expand beyond the 10 acres shown on the map.

Peter
